We're talking about saving on many popular titles and accessories. Scroll forward to crush the D-pad and grab some of the top deals. Nintendo Switch (\$299; amazon.com bestbuy.com) What is our favorite feature of the switch? Well, it's portable and a traditional console, as you can dock into the included position and connect it to the TV or just bring the switch with you. It features a 6.2-inch display with a left and right joy-con attached to each side. There are plenty of games for it, like *Animals Beyond: New Horizons* and *Pokemon Sword*. Best part? The console is actually in stock. Nintendo Switch *Animals Beyond: New Horizons Edition* (\$299; amazon.com) Want a slick paint job for your switch that suits your love tom knock? Look no further than *Animal Pass: New Horizons* edition of Nintendo Switch. It hasn't been available for months, but it's back in stock now. Nintendo Switch Lite (\$199; amazon.com, bestbuy.com, gamestop.com and target.com) The Switch Lite is a mobile-only switch that can play the same games and costs much less. It's only \$199 and comes in four fun colors: turquoise, gray, coral and yellow. You'll be playing on a 5.5-inch screen, and the whole thing weighs a slight 0.61 pounds though. *Pokemon Sword* or *Shield* (\$39.99, originally \$59.99; bestbuy.com) The latest generation of Pokémon is \$20 now in Best Buy. Choose between *Pokemon Sword* or *Pokemon Shield* and explore the Galar area, packed with new Pokémon and trainers for battle. It's something we hope Nintendo will fix in the next generation, but accessory manufacturer *TwelveSouth* has a solution: *AirFly* plugs into the headphone jack Casts a Bluetooth signal for your headphones to connect. It works like a charm. *SanDisk 512GB Micro SD Card* (\$79.99, originally \$129.99; amazon.com) You can never have enough storage for your switch or lite switch, and this 512GB micro SD card is nearly 40% off and issues after animal transition.
